

ASID  
CRYSTAL  
AWARDS  
THIRTEENTH ANNUAL | 2011

## RESIDENCE BETWEEN 3,000 & 7,000 SQUARE FEET

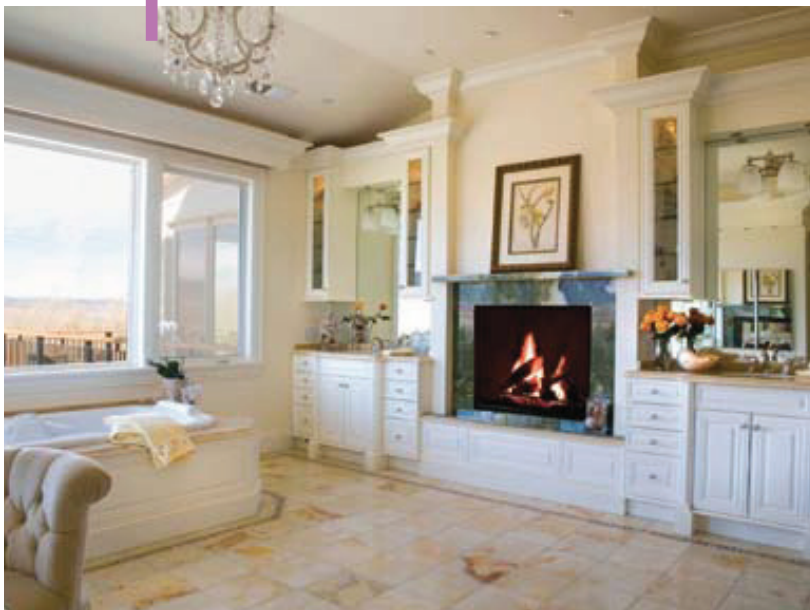

### *Country Manor*

**DONNA POCCHI | POCCHI DESIGN GROUP, [pocchidesigngroup.com](http://pocchidesigngroup.com)**

**CHALLENGE:** Give an open-concept feel to a dark home with unusable clustered spaces; take advantage of mountain views and daylighting.

**SOLUTION:** Integrate all aspects of the built environment into the surrounding landscape as a single whole.

**DESIGN DETAILS:** Windows, doors, decks and terraces were arranged to take advantage of the evolving landscape and mountain views. | The kitchen can accommodate catering of large parties yet feels cozy when one or two people are cooking. | Warm woods and a combination of traditional and antique furnishings create a “country manor” feel.

## KITCHEN

### *Lookout Mountain Kitchen Remodel*

**KELLY PETTY**

**CHALLENGE:** Update a kitchen for a young family that hosts both sports-team dinners and intimate adult gatherings.

**SOLUTION:** Design a safer, better functioning U-shaped layout that provides a sense of space and additional prep, clean-up and storage areas.

**DESIGN DETAILS:** Contemporary materials, cabinetry and appliances add up to a timeless design that will continue to function well for a growing family. | A center island with prep sink accommodates multiple cooks. | Large, high-end appliances, including two dishwashers and a wine cooler, make entertaining a snap.

## EMERGING DESIGNER

*Sybase, Inc.*

**DANIELLE MEYER | BOX STUDIOS**, [boxformation.com](http://boxformation.com)

**CHALLENGE:** Provide exceptional design within a limited client budget and tight time frame; test and integrate LEED building standards.

**SOLUTION:** Design an interior space that works with the character of the building and becomes a natural extension of the architecture.

**DESIGN DETAILS:** Traditional materials, such as wood and polished marble, were used in unexpected ways to add interest. | An organic approach to lighting softens and complements the linear edges, visually and acoustically dividing spaces with distinct functions. | Modern furnishings and bold colors in upholstery and paint infuse energy into the space.

## RENOVATE/REINVENT

*English Cottage*

**DONNA POCCHI | POCCHI DESIGN GROUP**  
[pocchidesigngroup.com](http://pocchidesigngroup.com)

**CHALLENGE:** In six-months' time, renovate a home with an emphasis on quality, comfort and beauty within a tight budget while the homeowners lived in the house.

**SOLUTION:** Develop a project that doesn't say "traditional" or "modern," but expresses the clients' personalities, European roots and passion for travel.

**DESIGN DETAILS:** All the rooms were redesigned to open onto the new garden terrace. | The overall feel of the décor was updated by adding contemporary accents and modern furnishings and accessories to traditional architecture. | A warm, neutral color palette is used throughout the house, creating a cohesive, open feel.
